

# RFID Card

LF	HF	UHF
		

## PRODUCT DESCRIPTION

<b>Electrical Characteristics</b>	
Operating Frequency	125 KHz ; 13.56 MHz ; 865 MHz to 867 MHz
Reading Distance	Depends on the Reader
Available Chip Type	<b>LF:-</b> EM4100;HITAG 1; HITAG 2; HITAG S; <b>HF:-</b> MIFARE® S50, S70; I-CODE 2; MIFARE® Classic 1K; MIFARE® Classic 4K; <b>UHF:-</b> ALIEN; MONZA
Memory Size	96 bits to 4 KB
<b>Physical Characteristics</b>	
Material	PVC,PET-G,& PC
Dimension	85.6 x 54 x 0.86 mm ( As per ISO Standards)
Weight	5.8 gms
Color	Plain White; Pre Printed
<b>Temperature</b>	20°C to +50°C
<b>Printing Options</b>	Serial number printing using laser engraving
<b>Area of Application</b>	Access Control, Parking, Staff identification, Property tracking

ID Tech Solutions is a prominent RFID cards manufacturer and supplier located in New Delhi, INDIA with a proven track record of customer satisfaction and a long list of clientele. We are a reliable source of passive and active RFID [Radio Frequency Identification] Cards. RFID cards have RFID chip for transmitting information to a reader. One does not have to swipe the card through a reader, Instead, to read and store the information containing in a chip, all you need to do is to pass the card within the range of radio frequency reader. Rfid cards are plastic cards that have Radio Frequency Identification inlay inside of it.

We are a leading RFID cards manufacturer and supplier in Delhi of these cards for varied purposes. We are known for our high quality and durable, cost-effective RFID cards that suit your particular

requirements. In today's world, where we all are dependent upon technology, RFID cards can be used for a lot of applications such as Time Attendance, Access Control, E-Purse, Library Management, Animal Identification, Retail Inventory Management, Toll Road Management, Loyalty Applications, Healthcare Management, Asset Management, Warehouse Management just to name a few.

The Key Features Of the RFID Cards of ID TECH SOLUTIONS is that they can have 4 color printing to make the card look more attractive and elegant, they contain upto 4kb of memory, a Unique serial number, 16 secured and separated sectors to support multiple applications, up to 100,000 single write operations and up to 10 years of data retention making our cards one of India's most reliable, durable and advanced RFID cards available to date. They are also available in both 125 kHz (PROXIMITY CARDS) and HF and UHF card frequencies and in HITAG1; HITAG2; HITAG S; MAIFARE 1K; I-CODE (Read & Write) chip and TK 41000, MONZA, ALIEN and UPM chip types depending on your requirement.
